

The Board of Trustees
Neurofibromatosis, Inc., Northeast

The Board of Trustees of NF, Inc., Northeast are:

Men and women who want to make a difference,
are leaders in the community,
are respected by their peers,
believe that neurofibromatosis is a terrible disease and believe that
through advocacy, fund raising and education, a cure is imminent.

Members of the Board of Trustees will not be fiscally responsible for
the organization, will not be required to attend meetings, but will
provide assistance, as they are able, attend fund raising events as
time permits and will carry the message that *neurofibromatosis*
is a problem that can be solved.
